WE OFFER THE FOLLOWING TERMS OF SALE

1. All Coins GUARANTEED Genuine - This is a LIFETIME Guarantee!
2. All attributions are guaranteed correct - also LIFETIME Guarantee!
3. The IDENTIFIED POPULATION estimates (RARITY) of varieties change as more pieces of Copper are attributed, and it is IMPOSSIBLE to have an ACCURATE rating! But, we do use the most up-to-date data available - as reflected in "Copper Quotes by Robinson". (CQR)
4. STRICT ANA & EAC guidelines are used in grading, which consist of assigning a grade based on the state of preservation/wear of the piece. We then describe the condition of the coin so that you will have as good an idea as possible of what the coin looks like without actually being able to see it in person. It is our intent that there be NO SURPRISES when you receive the coin. Virtually all old Copper has accumulated some marks in their lifetime since leaving the Die/Mint - It is our intent to describe any such marks of significance. We now introduce a new term - VALUE GRADING!!

   Sharpness Grade is far easier to describe in consistent terms, and where there may be circulation defects such as porosity, gouges, rim dings/nicks/bruises, corrosion and other such detractions, arriving at a NET GRADE is certainly subjective at best. The grade that we have assigned on the first line describing each coin is intended to represent this NET GRADE/VALUE GRADE.

   If the Second Line does NOT start with a Sharpness grade, then it is our opinion that the NET GRADE of the coin is the SAME AS the SHARPNESS GRADE of the coin, and that there are NO SIGNIFICANT defects worth mentioning. Perhaps NOT PERFECTION, but whatever marks or other elements that may be present, do not deduct from the over-all appearance/grade of the coin, and are mentioned for accuracy.
5. A Full 30 DAY return privilege is allowed for any or no reason. Our business is based upon attracting repeat customers, and it does none of us any good for you to keep a coin with which you are not completely satisfied. The 30 day period is an approval period, and we welcome any of our customers to show their purchases from us to any other EXPERIENCED EAC member for another opinion. Sales are final after the 30 day period, but we will certainly consider extensions in this time limit upon any reasonable request.
6. All coins are guaranteed to meet ANACS certification for grading! Any coin graded lower by ANACS can be returned within 120 days for immediate refund of the full purchase price plus all ANACS certification service fees.
7. All orders are sent postpaid.
8. Approval service is available to established clients with 7 day terms.

We are always interested in buying Early Copper & Type Coins! If you have coins to sell, we would be happy to have you contact us. We are willing to PAY STRONG PRICES for NICE coins. We will also accept coins on a consignment basis at a reasonable commission. Please feel free to contact either of us with ANY questions that you may have.

VG8 Black and tan color. A very lightly grainy planchet free of marks but with several light planchet striations and a lamination on the neck. This is the Charles Ruby coin lot 342. There is some controversy in EAC whether mint made imperfections such as clips, laminations, plan voids,etc. should deduct from the net grade of the coin. I continue to deduct points for imperfections, mint made or otherwise. A friend of mine owns the finest known specimen of a rare variety of 1848 Large Cent. The coin is mint state. Unfortunately it's double struck! Maybe I should say he owns the two finest specimens...In any case we are unlikely to resolve this controversy to everyone's satisfaction. MARCH, 1990 FIXED PRICE LIST #0027

One of the nicest trips I've had in a long time started as a 6 AM flight into New York's LaGuardia airport,one of the worst large city airports in the world. I was on my way to the Joe Rose Sale being held by Joe's auction company Harmer Rooke. I've know Joe for a long time. He's one of the old school of coin dealers and I was anxious to support his sale.

If you have never been to a Harmer Rooke Sale it is a fascinating experience. First coins are not their exclusive focus. The showrroom is filled with an eclectic assortment of tribal masks, patent medicine advertisements, pre-columbian pottery and terra cotta figurines, sculpture, paintings and mummified body parts. There are also coins of every sort. But it was the Joe Rose collection of Early Copper I came to see.

I came prepared to view lots forewarned and forearmed with the knowledge that this sale would be different than previous copper sales. Most sales recently have been very strictly graded by what have come to be known as EAC standards.That is sharpness less defects equals a net grade. Here commercial ANA standards were used. That was no secret to any one but made for a difficult situation for those not used to the looser standards. Many of the early dates had surface problems which drastically reduced the net grade. For the most part the middle and early dates were problem free and attractive.

During the first days viewing Don Valenziano,an old friend of mine from Chicago days,made the trip into town to pick me up. Don now lives in NYC and invited me to stay at his home during the sale. Most of you already know Don as he is a full time dealer specializing in Early Copper. Those of you who don't should know him. I asked Don what he thought of the lots on the Long Island Railroad ride home."Well,"he said, "there are some nice coins, and there are some not so nice coins."Ah Don always the diplomat. The second day's viewing proved the truth of what he said as I started seeing plenty of nice coins. The Helfenstein 27 N-1, a beautiful EF+ 1829 N-7 with a sharp strike. Many super late dates. The sale would prove interesting.

The sale did prove interesting. I bought the first lot in the sale: a nice F12 S-1 AMERI. Then I sat quietly for most of the Sheldons. I did buy the nice VG S-20 and the VF20-25 S-23 for a client. And the decent AG3 Jefferson head came my way. There were some important coins: a F15-VF20 S-101 brought 4500, a nice F12+ 1799 S-189 went for 5250 to my host. The nice G4 1801 NC-4 went for $7000. A disproportionate number of the other lots opened and closed to the book. However the book was not so successful once we reached the middle dates. Most of these brought floor bids. A few were outstanding coins. The Helfenstein 1827 N-1 was graded AU58 by most observers,though the slight cheek rub was more than offset by the outstanding color and general appearance. It brought a very healthy $2600 bid. The star of the middle dates was a beautiful 1829 N-7 with choice brown color and almost completely lustrous surfaces;much more sharply struck than most we have seen over the past several years. Pre sale grades ranged from Ef40 to AU55. It's a very hard variety to grade;call it choice E45. I bought it for a client at $5250. The lot right after it,a nice MS60 1829 N-8,brought 4250. A beautiful mint state 1843 petite head turned out to be a late state of N-2 rather than N-3. It still brought $2100. A nice MS63 1850 N-21 ,the state without the rim breaks,brought $3250 and the 50 N-26 in similar condition a few lots later brought $2100 to the same Kentucky buyer. Throughout the later part of the sale there was a bit of a ruckus in the back of the room.A somewhat heavy set guy and a dapper gent were having at one another about some lot about to be sold. The two failed to reach a compromise and soon were head to head over some ugly cast coin. It was a Vermont something Ryder 5 I guess. It sold for $25,000. Gee all that fuss over a ugly piece of old copper. I guess I'll never figure these Colonial guys out. I mean it's not like it was an S-79 or something!
